DIRECTIONS FOR USE:

Shake well before using.

CRAWLING INSECTS Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, behind baseboards, meter boxes and manholes. Spray directly on insects in these locations where possible.

Ants: Spray into trails, nests and points of entry around doors, windows, structural cracks and crevices. Spray directly on insects in these locations where possible.

STORED PRODUCT INSECTS AND HIBERNATING STAGES OF CLUSTER FLIES: Indian Meal Moths and Cluster Flies: Contact as many insects as possible when treating infested areas such as cracks and crevices, in wall voids, around windows and doorframes, under siding, in machinery and in dark secluded areas.

IN ANIMAL QUARTERS AND MILK ROOMS

For spot control of House Flies and Stable Flies the spray should be directed to the surface of walls, ceilings, stalls, stanchions, doors, window frames, foundations, light fixtures and other places where insects may alight, congregate and enter. Milk cans and/or bulk tanks should be covered or removed during treatment.

TO TREAT LIVESTOCK

To protect horses, dairy cattle, both lactating and non-lactating, from attacks of Face Flies, Horse Flies, Horn Flies, Black Flies, Mosquitoes and Gnats:: Spray about 3 seconds on each side being careful to spray back, withers and forelegs thoroughly. To protect from Face Flies, spray the face and head, but do not spray into eyes. Repeat treatment when flies are troublesome.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat or store at temperatures over 50C. Do not spray on plastic, painted or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin, clothing and avoid inhalation of vapors or spray mist. In an enclosed space, provide ventilation during treatment and until spray has dried completely. Wash thoroughly after handling and before eating, drinking, etc. Do not apply to plants or humans. Remove pets and fishbowls from area before treatment and do not return them for at least 4 hours after treatment. Do not apply to surfaces that children or pets might contact. Firewood is not to be treated. Do not apply to classrooms when in use. **DO NOT CONTAMINATE FOODSTUFFS.** Do not use in food handling establishments, restaurants or other areas where food is prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, all food surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Do not use in any areas where food is being stored, handled or served. **Meat Packing Plants and Food processing Plants:** In meat packing plants and food processing plants treat only when plant is not in operation. No exposed meat or food products, ingredients or packaging materials are to be kept in the room. Cover food handling equipment. All treated surfaces that might contact meat, food products or other food products should be washed and rinsed thoroughly with potable water after treatment and before re-use for food processing. **Hospitals:** Do not apply this product in nurseries, patient rooms or any rooms occupied by elderly or infirm.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then

give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product

STORAGE: Store product in a cool and dry place, away from open flames and heat sources.

DISPOSAL: When container is empty, press valve to release pressure. Do not puncture or incinerate. Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

REVOLUTIONARY NEW Eco Can USES THE POWER OF AIR

The Eco Can delivers a quiet spray without using CFCs or hydrocarbon propellants

SPRAYS IN ANY DIRECTION, EVEN UPSIDE DOWN

Unlike products that utilise the Eco Can, normal aerosol products require that a percentage of propellant be included, the purpose of which is to expel the contents out of the can

The Eco Can uses air pressure instead of propellant.

The Eco Can has a quiet spray.

Eco Can - THE NEXT GENERATION IN SPRAY TECHNOLOGY

Eco Cans do not contain propellant.

Eco Cans do not need or use hydrocarbon propellant .

Eco Cans use newer technology.

Propellants no longer needed if you use the Eco Can.
